# Local Dining Guide

Web Based Dining Information Solution

Welcome to the Local Dining Guide project! This web-based software solution is designed to
provide users with comprehensive dining information, making it easy for them to explore
and discover local restaurants, cafes, and eateries. Whether you're a food enthusiast looking
for new culinary experiences or a traveller seeking the best dining spots in town, Local
Dining Guide has got you covered.

**Group Member 1 Task:** You need to add following content in the README.md file using Mark Down/HTML syntax with maintaining same design. Upon cloning the repository,
you will find an initially empty README.md file. Please add the following content, starting from line number 1.
